A FAIR WARNING

One That Should Be Heeded By Norway Residents.

Frequently the first sign of kidney trouble is a slight ache or pain in the loins. Neglect of this warning makes the way easy for more serious troubles—dropsy, gravel, Bright's disease. 'Tis well to pay attention to the first sign. Weak kidneys generally grow weaker and delay is often dangerous. Residents of this locality place reliance in Doan's Kidney Pills. This tested remedy has been used in kidney trouble over 50 years—is recommended all over the civilized world. Read the following:

Mrs. G. D. Frost, 6 Tucker St., Norway, says: "At the time I used Doan's Kidney Pills they helped me wonderfully and I take pleasure in recommending them. My back gave me trouble and there seemed to be a deep seated pain across the center of my back. My kidneys didn't act regularly and in other ways showed signs of disorder. As Doan's Kidney Pills had been used in the family with good results, I decided to try them and got a box. After using them, the trouble left me entirely."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Frost had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

FRYEBURG

There's a town that's very busy, Fryeburg, Me. Everybody owns a Lizzie, Fryeburg, Maine. Other towns will have to give in. 'Tis one place that's best to live in. There's one place that's best to live in.

The schools, they can't be beat in Fryeburg, Me. And the Schoolmarm they are neat in Fryeburg, Me. No place has such good cooks. Can't compare with them in looks. They're the kind you find in books.

Though the prices, they are high in Fryeburg, Maine. Though the people are not rich. They carry on without a hitch. They're not sleeping at the switch.

They have the purest air in Fryeburg, Maine. No scenery can compare with Fryeburg, Maine. And the elm trees are so grand—Look some frosty morning and You will think it's Fairy Land.

So of course, we think the most of Fryeburg, Maine. If I write, you think I boast of Fryeburg, Maine. But the proof is not so far. Fryeburg, Maine. Come and see us—bring your car. You'll roll in without a hitch. To Fryeburg, Maine. —O. R. MILLIS.

SINCE PA GOT RICH IN WALL STREET
Since Pa got rich in the Wall Street game, Ma thinks it's best to change our name. From Brown to Browne. We've packed our poor old Lizzie Ann And bought a dandy new sedan, The best in town.

With a spick ride upon a new, But it seems no one can pronounce his name. Sister Sal from off the sofa, Stollers, "Dad! go get that Shofer." While Grandma, she says, "Dannie Dear, Please, go and call the Shofer. And then my pa, when he's gruffer, Says, "Boy! Run and find the Shofer. Not to have the rest outside her. Ma says, "Son, where's the Shofer?" While Great Grandma—how I love her! Truly calls, "Where is the shofer?" And Grandma, she says, "The Shofer, Asks me if I've seen the Shofer. And I tell you, it makes me smile. They send me running most a mile, I don't know who for. If they want their errand done 'fore night, Why don't they learn to pronounce right, And say, "The Shofer?" —O. R. M.

A subscriber requests we print this poem for the benefit of George Atwood and Fred Sanborn, so here goes: How sad it is so many men climb up and ride upon a pen. And spatter ink and bust their hames When they attempt to sign their names. I've studied with him and groans; Sometimes I think the name is Jones. With sundry letters upside down, And then again I see the Brown. Perhaps it's Smith—it may be Duff, Give it up! I've toiled enough. They ought to be some chloride cures For men with dizzy signatures. They make the angry passions rise, They bring too much water to the eyes. They waste the time of busy men By their gymnastics with the pen.

KEZAR FALLS

On the evening of June 21st, a Community social was held in the vestry of the M. E. Church by invitation of Rev. Mr. Whitely and despite the heavy rain was very well attended. Sociability was the order of the evening. Music, readings and reports of the different organizations added to the general interest and the collection served by the ladies in charge was very acceptable.

Mrs. John Garner of Lewiston is the guest of Mr. and Mrs. Allen Grover; Mrs. Emily Stetson of the same city is also with them.

The Ladies Circle met on the afternoon of June 20th at the Parsonage. Mrs. Whitely made an ideal hostess and the afternoon was much enjoyed. After the business program and readings by the ladies were concluded the hostess assisted by Mrs. Cross served delicious cake and ice cream.

Quite a number from here attended the circus at Portland, Monday the 25th.

On the 15th of June Louise Janet Chase of Standish became the bride of James McGregor Stewart of Kezar Falls, two young people well and favorably known here. Mr. Stewart is commander, Carol West Post 123. Numerous friends here wish the young couple long life and much happiness and hope they will decide on Kezar Falls as their permanent home.

BRYANT'S POND
Dr. M. F. Falk and Lena M. Felt of Rumford spent last Sunday with Emily J. Falk.

Lewis Cole attended the circus at Lewiston last Wednesday.

Charles E. Hamlen went to Lewiston Monday and attended the State Convention at Saco this week.

Dr. George H. Hamlen of Lewiston was in town last week.

There will be a meeting at North Woodstock next Sunday at 2:30 p. m., July 2nd.

Miss Myrtle Bacon is spending her vacation here with her brother, Ralph.

Mrs. Alice Farrar spent several days recently with her daughter, Mrs. Florence Benson at Oxford.

Mr. and Mrs. C. P. Kimball of Berlin visited her brother and family last week. Mr. Kimball has worked for Brown Co. as head bookkeeper; it will be 30 years next May.

Mr. and Mrs. George Forbes and three children, Geo. Jr., Ruth and Rachel, motored to the White Mills last week and spent the week at the White Mills. Mrs. A. B. Atwood of Chocoma, sister, Mrs. A. B. Atwood of Chocoma, Inn. Ruth is still visiting at the Inn for a few days. The trip they took lead from Bethel through Gilead and on through Pinkham Notch, to Intervale, Jackson, Conway, North Conway and the view was splendid as the clouds had cleared from the sky.

Bryant's Pond Boy Scouts Camping Trip
The Bryant's Pond Scouts claim that they encountered but one setback in their trip to Shagg Pond. They said that they lost so much water "sweating over Billings Hill" that when they went in swimming, Shagg Pond dropped an even foot.

At 7 o'clock Friday morning twelve scouts accompanied by Scout Masters Fred Cummings and Harold Gilmore, left the train for Shagg Pond. The morning was a little dull but not the boys. Eleven miles on foot carried them to Arton C. Wheeler's Red Camp where they stopped till their return trip. Filling up, swimming and athletics took care of the larger part of the time. The Scouts went for a good time and certainly had one for everyone groaned at the thoughts of leaving until the very last possible second.

The evening program was largely wrestling matches and eats and many a creaking elbow and knee lost its external covering before winners could be picked. Bare floors and bare boys tell many a sad tale but always live to tell it. Everyone got a fair nights sleep, each boy being "watted to sleep" on the snores of his comrade.

This hike was declared by all to be the best ever but too short. The Bryant's Pond troop contains 18 boys and is a live troop. It is the first year of organization and everything shows steady gain.

LOVELL

Mrs. F. L. Weller is at work in the Telephone Office.

We Now Have
2 Bull Calves for Sale

Both are sired by our herd sire, King Hengveld Alcartia, who headed our exhibit of Holsteins at the fairs last year. These Calves are growthy and nicely marked, about one-half white. They are about 2 months old and have the type one should expect from their parents.

The dams are 3-4 sisters, one 6 yr. old recently gave under official test 57.5 lbs. of milk and 25.3 lbs. of butter in seven days, giving almost 91 lbs. of milk (45 quarts) her best day. Her calf is priced at \$200.00. The other cow gave 58.2 lbs. milk and 24.1 lbs. butter in seven days and gave 84.9 lbs. (42 quarts) milk her best day. Her calf priced at \$150.00. Registration and pedigree papers with calf.

Both of these bulls have 29 sisters admitted to advanced registry: more are to be heard from.

The day is now past when a breeder buys a bull calf or a herd

sire solely because of outstanding showing qualities or of big production. He now desires a sire from individuals who combine quality with production. These calves have size, type, quality and will not only improve your herd, but will make individuals of which you may be proud.

Herd free of tuberculosis and under State and Federal supervision. These calves priced for immediate sale. Further advertising will make them cost more.

They are guaranteed to be right in every particular and guaranteed to be breeders. They will be delivered free within sixty miles or will be crated and put aboard the train at Fryeburg at prices named.

The dams and calves are at our farm and we welcome an inspection. We urge you to make a reservation either by phone or wire.

Terms to responsible parties.

1776-Independence Day-1922

"Four score and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal."

Thus began Lincoln's immortal address, delivered on the battlefield of Gettysburg in 1863. Since that time nearly three score more years have come and gone. And because of the heroism of America's sons "the government of the people, by the people and for the people, has not perished from the earth."

More than Fifty Years of Service

The Fourth of July symbolizes American Independence. On the fourth of July

146 Years Ago

our forefathers signed the Declaration of Independence, thus giving us the right of making our own laws. Everyone was happy, bells pealed, drums rolled, cannons boomed. No more tyranny, no more laws made by the rulers of other countries. Every American should make this the day of all days, by showing his loyalty to the Stars and Stripes. We have absolutely the best line of Gent's Furnishings that can be found in the County. However, the matter of dress may not have been of such importance 146 years ago, never-the-less the old-timers looked very nifty in their ancient wearing apparel. Remember we fix you out for the Fourth in satisfactory style, both in looks and feeling. That is to say you will look well and your pocketbook will not feel the loss.

The Race Victory at INDIANAPOLIS The Road Victory at WICHITA Help You Choose Tires

506 miles at 94.48 miles an hour—a relentless grind over a rough-finished, sun-baked concrete and brick pavement at record-breaking speed—that is the gruelling test Oldfield Cord Tires underwent successfully at Indianapolis Speedway May 30th. They were on the winner's car for the third successive year and on eight of the ten finishing in the money, upholding the confidence successful race drivers have in the trustworthiness and ability of these tires to meet the greatest demands of speed, endurance and safety. Their records in every other important race have been equally as good.

Consider this achievement along with another test of Oldfield quality made at Wichita, Kansas, this past winter and early spring.

34,525 miles on rutted, icy Kansas roads, running day and night on a Studebaker stock car without a single tire change. This test was made by a group of Wichita automotive dealers in a tire, oil and gasoline economy run. Mayor Kemp of Wichita was official observer and made affidavit to the mileage and service given by Oldfield tires.

You may never subject your tires to the gruelling experience of Indianapolis nor the steady grind of bad winter roads, but it is good to know you can get such safety and mileage economy by buying Oldfield tires. Ask your nearest dealer.

The Woodstock A. C. lost their first game of the season Saturday, when Bethel defeated them by a score of 4-3. Previous to the fourth inning only one man reached first base. In this inning, W. A. C. scored three runs and the remainder of the game not a man reached third base.

The feature of the game was the pitching of Chase for W. A. C. and of Starbird for Bethel. Although losing the decision, Chase had a clear head over the Paris High star. The Woodstock hurler allowed only two hits and fanned fourteen batters, while Starbird breezed eight, and was touched up for four hits.

Seth Mason received the sad news of the death of his brother's wife at North-west Bethel Thursday.

OTISFIELD

The Free Baptist Church met at the library. In spite of the rainy weather eighteen members were present. At noon a delightful lunch was served to which all the members contributed. Four new members joined, Mrs. Albert Kalweit, Mrs. Archie Wilbur, Mrs. Albert Hamlin, and Mrs. Philip Welch. A large number of useful and fancy articles are now nearing completion for the sale which will be held in July. The next meeting will be July 5th at the library.

Earlier in the season it was very generally predicted that we were to have an unusually dry summer in Maine. Hardly ever, however, have predictions gone so far astray this season. Likewise the weather predictions went astray on the 18th when according to report it was to be "Sunday fair." In reality it never rained harder and continued for some days—proved to be only an error in calculation.

Junk something every day. Junk your worries, junk your fears, junk your anxieties, junk your little jealousies, envies and hatreds. Whatever interferes with your getting up and getting on in the world—junk it. Every night before you go to sleep put in the junk heap all your disappointments, all your grudges, your revengeful feelings, your malice—junk everything that is hindering you from being a big strong, fine character. The great trouble with most of us is that we haven't any junk heap of this sort. We pull all our mental enemies, all our handicaps, our discouragements, our losses, our misfortunes, our troubles, worries, and trials, along with us. That adds up more than fifty per cent. of our vitality and energy, so that we have only the smaller amount left for the great achievement of making life a success.—Success Magazine.

How the Famous Disc Clutch of the Buick "Four" Proved Itself

The same design of disc clutch that was used in the powerful war tanks is likewise used in the Buick Four.

The Buick clutch under the most gruelling conditions, has proved itself absolutely positive, dependable, and easy to operate—a clutch that demonstrated the same certainty and safety for unforeseen emergency that it did for ordinary service.

This thoroughly trustworthy unit is a development of 20 years consistent effort. It is typically representative of the standards governing the construction of the Buick Four throughout.

Catarrrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound and impaired hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be removed, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing inflammation and restoring normal conditions.

New Spray For Trees

F. Marion Lougee of Lewiston, a graduate of Bates College and former teacher in Norway High School, who has been teaching and studying chemistry at the University of Illinois, Urbana, Ill., has worked out a formula that is being used with much success at the research station in that State. So satisfactory have been the results of its use on fruit trees that it will be given a trial on forest trees.

This new spray is both fungicide and insecticide and the formula is believed to be the best for general use, that has thus far been brought to the attention of the experimental station.

During the World War Miss Lougee was in the Government service in England in chemical research work so fascinating that she decided to specialize in it. Two years ago she accepted a position at the University of Illinois. She is now visiting in Lewiston with her mother and sisters during her summer vacation.

The tree was at least 150 years old and selected for patterns many years ago. Women Need More and Better Blood

To be strong, well, equal to demands of home, society, office or shop. It is a fact proven by thousands of grateful letters that Hood's Sarsaparilla is remarkably beneficial to young or older women. The most common ailments of women drain and weaken the system and sometimes result in anemia, nervous weakness, general break-down. Hood's Sarsaparilla gives the blood more vitality and better color, makes stronger nerves, and contributes to the length and enjoyment of life.

Visitor From Maine is Given a Farewell Reception

The Merced Morning Star of Merced, California, contains the following item: "Mrs. J. W. Bell tendered her mother, Mrs. Flora J. Cummings a farewell party at her home at 1519 Nineteenth street last Wednesday afternoon. Mrs. Cummings departs for her home in South Paris, Maine, on the 24th inst., after a six months visit with her daughter, Mrs. Bell, and her brother, P. W. Judkins, and family of Mariposa. This is Mrs. Cummings' second visit as being a permanent one."

"About twelve ladies had assembled to wish Mrs. Cummings Godspeed and a pleasant journey. A delightful afternoon was enjoyed by those present, sewing and fancy work was indulged in by the more industrious ladies. Several recitations were rendered by Mrs. J. E. Williams, in her bright and charming manner. Mrs. Cummings also recited a 'bit of romance' in her clever way. The dainty refreshments served were in keeping with the pretty floral decorations of the rooms."

In a letter from Mrs. Flora Cummings she writes: "The world is beautiful here now, grain being harvested, flowers in bloom, trees in fruitage, in various degrees of maturing and numerous birds. The people are living out of doors on excursion trips and picnics, but not engaged in necessary labor, but I know Maine and especially Oxford County can't be expected in beauty and grandeur this time of year, so 'tis with a feeling of happy anticipation I make ready for my homeward trip which is to be by rail, on Sunset Route far as New Orleans, then on the water, S. Pacific S. S. line to New York from there to Maine by rail."

"I am sorry my 6 mo. subscription to Advertiser run out this last paper and now there'll be one week before I start I won't receive one. The Advertiser is one of the things I've watched the mails for while here and surely will want it to follow where ever I may be."

Norway Boy Scouts claim there is no time like a good time, "rain or shine."

"They certainly proved this saying in their last 3 day trip to Thompson's Pond. Worst weather for camping could not be imagined but everyone had a 'corking good time' and everyone moved home altogether too soon."

Twelve scouts accompanied by Executive Penham started en route for Oxford Wednesday forenoon loaded for business. Before half the journey was covered soft rain began to fall. These drops developed into a rainfall which put a 'debilitating slouch' on every Scout hat. At this point in the trip a star appeared in the shape of a big empty truck headed for Oxford. Well come Oxford—Hayes farm."

The troop camped in Hayes barn, a mile and a half from Oxford village. This proved an ideal spot; a brook on one side, a sand stretch on the other, and "unlucky thirteen" between them. Everybody kept busy and there was no complaining. No one wanted to go home only to get more articles to stay longer. Athletics and swimming occupied the larger part of the time. Polo Vault, High Jump, Running and Standing Broad Jump, Sprints, Swimming Races, special trapeze performances and Baseball were the program."

The new game of Indoor Pom-Pom originated here and immediately became popular. This sport is similar to 'hit the stick' in the head, but a football is used instead of a baseball and the order of position is reversed. Joe Labossiere became so expert in the game that he was ruled out on the principle of "Safety First."

This trip will be remembered by Norway Scouts as the Lucky Star Hike to Thompson's Pond."

Ohlund-Dunbar

The marriage of Dorothy Archette Dunbar of Oxford and Clifford Sidney Ohlund of Dorchester, Mass., took place, Wednesday afternoon, June 21, at the home of the bride's parents, Mr. and Mrs. James Dunbar, High street.

The ceremony was performed by Rev. D. L. Joslin, pastor of the Methodist Episcopal Church, at 2 o'clock. The double ring service was used and the bride was given in marriage by her father.

Mildred Heslop played the wedding march, while the bridal party entered, grouping themselves near the arch of ferns and flowers, where beneath a large floral wedding veil the bride and groom stood on a tapestry strewn with roses.

The bride wore cream-crepe, remained with pearl garniture and carried yellow roses. Gladys Dunbar, the bride's sister and attendant, was gowned in white silk messaline, her flowers being pink roses. Mary Twitcheell, tiny niece of the bride and daintily dressed in white mull and blue ribbons, was the bearer of the rings. The best man was James Ellsworth Wheeler.

Ferns, roses and peonies, with daisies and honeysuckle were effectively combined in the decorations.

A large number of relatives, including the bridegroom's parents, Mr. and Mrs. Frederick Ohlund of Dorchester, Mass., and a few intimate friends of the bride were present.

A reception followed the ceremony; Clara Walker and Ethel Dunbar served refreshments. The gifts in charge of George H. Dunbar were many, including silks, linen, blankets, a hammered copper tea set which came from Sweden from the bridegroom's family, a substantial check and a pearl handled carving set from the mother.

The bride is the daughter of Mr. and Mrs. James Dunbar and was born in Oxford where she received her education. She attends the Methodist Church, is a member of the Delta Alpha class, also the Faithful Workers Club. She was the guest of honor at a recent shower at the home of Clara Walker.

The bridegroom, the seventh son of Mr. and Mrs. Frederick Ohlund of Dorchester, Mass., is an ex-service man, a member of the 340th Field Artillery, Battery B, 89th Division. He was at the Camp Funston training camp, saw five months' service overseas and served with the Army of Occupation in Germany for six months after the armistice. The Wentworth Poultry Fountain

(Patent Applied For)
We have recently perfected and are now offering a new fountain for watering system known as THE WENTWORTH POULTRY FOUNTAIN. It has been developed with the idea of lessening the spread of diseases through the drinking of contaminated or impure water. The fountain or main body of water is entirely separate from the drinking vessel. Water is automatically drawn from the fountain and maintained at any predetermined depth in the drinking vessel. It will thus be seen that it is impossible for the main body of water to become contaminated, for it does not come in direct contact with water in the drinking vessel. The object, therefore, of the fountain is to automatically supply fresh pure water as required by the birds, and its advantages are as follows:
FIRST—The Drinking Vessel being separate from the main body of water, may be rinsed or disinfected at will without interfering with the fountain or main water supply.
SECOND—There are no float valves, air tight caps, or anything of the sort to get out of order. Its construction is simple; its operation is positive and pleasing.
THIRD—It is durable, will last a lifetime, and is inexpensive.
Three Gallon Size, \$1.85 Five Gallon Size, \$2.45

(Communication) TAXATION AND HIGH COST OF LIVING

The courts of the nation and the states are the bulwarks of our civilization. They stand between law and order and not rule and anarchy. When therefore, the labor unions demand that courts be shorn of their powers it is high-time for the people to awake to the threatened danger. When protection to the lives and property of citizens is opposed; when Judges are denigrated for their decisions, rendered in accordance with law; when persons are prevented from working unless they belong to some association; when they quit work and stop others from taking their place and when strikers do not stop at violence and murder to prevent others from working to get an honest living it is time for us to inquire whether we will long be living in a free country if this state of affairs continues, and whether we shouldn't call things by their right names, and treat such as they are outlaws. What do we have soldiers for in time of peace except to use against such enemies of peace, prosperity and the growth of civilization. There is no such pressing necessity today as to make the lawbreaking labor unions feel the mighty power of the law and government authority. Ho for the day of the free and open shop.—Comment.

The farmers of New Hampshire are up in arms over the tax system in that state. They claim that their taxes have been boosted up 142 per cent from 1910 to 1920, while the valuation has been put up 100 per cent. They propose to have a change. We wonder what the figures would show for Maine. After every year the values of all species of property shrink, but our state valuation commission keeps on crowding up the valuation everywhere. There does not seem to be any real effort to equalize values. It has been a rule of the board to make a general increase in every town of ten to fifteen per cent. What sense is there in going it blind in this way? Most of the state commissions need shaking up and sifting out. Incompetents should be boosted out, and men put in their places who know their business. "Round pegs cannot be made to fit into square holes." Out with the public doughheads.—Comment.

The Hon Mr. Walker, we believe his name is Joe, is after the senatorial scalp of Henry Cabot Lodge, who from his pictures in the newspapers appears to be rapidly growing old, perhaps fast approaching his dotage. Politicians will do well to keep their weather eyes on Senator Geo. H. Moses of N. H. He is the coming leader in the Senate from N. E. Walker makes two good points against Lodge. He says the tariff should be constructed on scientific principles and not for the purpose of putting more money into the pockets of profiteers, by enabling them to keep up prices on a war basis. That sounds like good horse as well as business sense. He also says that the bonus is an iniquitous measure as the country cannot afford it. Later the boys will be generously used, as the Civil war veterans were and are. Oh for more men in the Senate like Moses of N. H. and Pepper of Penn.—Comment.

The returns from the vote in the primaries show that over 6000 voters failed to cast a ballot for a senatorial candidate. This shows wide spread feeling of the lack of confidence in all of the candidates. This failure to vote was not confined to any one section but was general all over the state. One voter expressed himself this way: "I once took pride in my Maine men in Washington when Wm. P. Fry and Eugene Hale were in the senate, the former is a growing man, and the latter at the head of the naval committee and one of the 'Big Five.'" Tom Reed Speaker of the House and Nelson Dingley chairman of the committee of ways and means. But those days have passed. Senator Bert M. Fernald, one here spoken of everywhere in terms of commendation. He is growing in influence and popularity. But I am disappointed in all the rest. I expected Peters to make some mark in the House but he didn't. Beedy may do something but probably not as he voted for the bonus."—A Voter.

A manufacturer of woolen goods says it only costs about six dollars for the cloth for a fine suit of men's clothing. Won't someone figure out why a suit should cost the consumer \$35 to \$45.—A Citizen.

BUILT BETTER than Cars that Cost More

A careful analysis of the construction and complete equipment of the Light Six will convince you that it has no duplicate in value in the light car class.

For instance, the machining of the crankshaft and connecting rods on all surfaces is a manufacturing practice that is found only on costlier cars.

This particular operation is mainly responsible for the fine balance of the Light-Six motor and its remarkable freedom from vibration at all speeds. It also has an important bearing on the wearing quality of the car and on its long-lived dependable service.

The exceptional values in the Light-Six are possible because practically every part that goes into the car is manufactured complete in the most modern plant in the world. Parts-makers' profits are practically eliminated. Important saving through better methods and bigger volume permit greater value to the buyer.

From the standpoint of shrewd investment you should find out why the Light-Six offers you so much more for your money in performance, service and economy.

SUCCEEDS WHERE DOCTORS FAIL

Lydia E. Pinkham's Vegetable Compound Often Does That.—Read Mrs. Miner's Testimony

Churubusco, N. Y.—"I was under the doctor's care for over five years for backache and had no relief from his medicine. One day a neighbor told me about your Vegetable Compound and I took it. It helped me so much that I wish to advise all women to try Lydia E. Pinkham's Vegetable Compound for female troubles and backache. It is a great help in carrying a child, as I have noticed a difference when I didn't take it. I ever come to this point again I do not want to be without the Vegetable Compound. I give you permission to publish this letter so that all women can take my advice."—Mrs. FRED MINER, Box 102, Churubusco, N. Y.

It's the same story over again. Women suffer from ailments for years. They try doctors and different medicines, but feel no better. Finally they take Lydia E. Pinkham's Vegetable Compound and you can see its value in the case of Mrs. Miner.

That's the truth of the matter. If you are suffering from any of the troubles women have, you ought to try this medicine. It can be taken in safety by young or old, as it contains no harmful drugs.
